Message for New People

If you have not done so already, thoroughly read the Joy of Satan website.

Perform the Dedication Ritual when you feel ready. If you cannot find the right candle color, forget the "so mote it be" at the end, or make some other minor error, that will not derail your Dedication Ritual. Satan is extremely understanding, unlike the christian god who will throw you into a pit of fire for every little thing, and is not going to come after you for extremely trivial errors. As long as your blood is on the paper and you genuinely want to dedicate yourself to Satan, your Dedication Ritual was valid.

Dedication Ritual

The goal of Spiritual Satanism is to spiritually empower yourself and obtain powers that humans are supposed to have like healing and telepathy. The final goal is to complete the Magnum Opus and become a god. Consistent meditation is key to those goals. A good place to start with

meditation is the 40 Day Self-Empowerment Program available in Satan's Library. PDF copies of the hatha and kundalini yoga routines from the 40 Day Self-Empowerment Program are in Satan's Library.

And, participate in our reverse torah rituals. We are in a war here and need to do what we can for our creator, Satan. But do these only after you have dedicated, so you have protection against the enemy.

Aura Cleaning and Aura of Protection (Everyone Must Do)

Cleaning your aura and building an aura of protection daily is absolutely necessary. A clean aura naturally repels negative energy, banishes depression, and prevents disease from manifesting. A dirty aura will cause bad luck, negative thoughts, financial hardship, problems with meditation, and other issues. A strong aura of protection will guard you against bad luck, accidents, psychic or physical attack, horrible people, and other misfortune.

You can use SURYAE, ALGIZ, BERKANO, SOWILO (SAULO is the more powerful version), SATANAS, solar energy, or some other method to strengthen your aura of protection. I recommend you use all of the above if you can. A very strong aura of protection will make your life much easier as you will be protected against bad luck, accidents, disease, horrible people, physical or psychic attack, and other misfortune.

You can also absorb energy from the sun or visualize yourself in a golden aura and affirm 108 times “I am always safe, secure, protected, and healthy in every way.” The protection working can be done multiple times a day.

Satan and his Demons are EXTREMELY Busy

Satan and the Demons are fighting a spiritual war to free humanity. Enemies of Satan are trying to collapse the world economy with the intention of establishing a global slave state. There are group spiritual warfare rituals being done that will destroy the enemy and keep them from establishing a global slave state where you will work 18 hours a day for a slice of bread.

Spiritual Warfare

http://www.angelfire.com/wizard/pixie666/RTR_English.html

Right now, Satan and his Demons are EXTREMELY busy fighting a spiritual war so humanity does not get enslaved. Unless you are in a dire situation and cannot fix the problem yourself or are in need of spiritual guidance and cannot find the answer on your own, do not summon a Demon. It is extremely unlikely that a Demon will show up if you summoned them for an idle chat or summoned them for the sake of summoning them.

Warning Against Giving Out Personal Information

Do not give out your location or personal information. There are infiltrators who would love to see a Spiritual Satanist killed or brought to ruin. If people know you are a Satanist they will not hire you for a job, fire you if you have one, kick you out of the house if you are underage, or attack you outright.

You can post questions you may have to the Yahoo Groups or Joy of Satan forums. It is not safe to have private conversations with people. There are infiltrators here who would love to see a Satanist killed or brought to ruin. They will pretend to be friendly and then lie to you, give you bad information, try to get you to hurt yourself, try to convince you that Satan is angry at you or has abandoned you, or try to scare you away from Satan. The infiltrators may even try to get your personal information and harass you physically.

What to Give in Return to a Demon

What you give in return to a Demon is between you and the Demon. Demons do not want useless trinkets in exchange for helping you. Genuine work for Satan, Satanism, or the Demon you summoned is what Demons want in return. You can bring publicity to Satanism by doing things such as spreading links, like exposingchristianity.com on the internet wherever you go. You can leave anti-tracts (small pieces of paper that say things like “Christianity is a LIE! www.exposingchristianity.com”) wherever you go. You can spread information about Satan and Demons and explain that they are not horrible monsters and are instead loving beings that have been fighting for humanity for thousands of years. You can participate in spiritual warfare against the enemies or produce artwork, a song, or another artistic creation for the Demon you summoned.

How to Work For Satan

There are many ways to work for Satan. If you work for Satan, he takes care of you.

There are currently group reverse torah rituals that you should participate in. The reverse torah rituals destroy the spiritual root of enemy programs like christianity and destroy the spiritual power of the enemies who are busy trying to start World War III and spark a Communist revolution to enslave the world. New reverse torah rituals are regularly posted to the Joy of Satan Yahoo Groups and Joy of Satan forum.

http://www.angelfire.com/wizard/pixie666/RTR_English.html

In addition to the above spiritual warfare, there are many things you can do.

You can place anti-tracts where people will find them. Anti-tracts are small pieces of paper that say things like: "Christianity is a Lie! see_the_truth.webs.com." or "Christianity is a Hoax! www.exposingchristianity.com ."

Post links to exposingchristianity.com, see_the_truth.webs.com, and other websites that expose the truth online. Go to chat rooms, forums, and anywhere else you can and post links. You can also post information revealing the lie that christianity and other enemy programs, like communism and feminism, are. Convince people that christianity is a hoax by revealing incriminating evidence, such as that the christian god is not all loving if he allows evil to occur. Look up arguments against christianity so you can rip any christian argument to shreds.

Send energy to the powers of Hell. Energy is needed and it is a simple working to send energy. One way to send energy is here: <http://josministries.prophpbbs.com/post13067.html>

You can also just raise your energies and then ask for Father Satan to take them. This can even be done more than once, but always remember, never drain yourself, do NOT give any energy if you are even mildly ill or overly tired.

Other methods of working for the powers of Hell are on pages 9 and 27 of the "High Priest Hooded Cobra 666 Sermons and Writings" in Satan's Library here:

How to Open Your Astral Senses

In order to see or hear Satan or a Demon, you need to open your astral senses. To open your astral sight and hearing, you need to meditate on your 6th chakra, 3rd eye, clairaudience points, clairvoyance points, and pineal lobe.

http://www.angelfire.com/empire/serpentis666/Satans_Meditation.html (For this meditation, you can breathe the energy directly into your pineal gland instead of your 6th chakra.)

Enemy Attacks and Dealing with Spiritual Entities

Make any spiritual being you contact swear they are of Satan. An enemy entity may swear they are of Lucifer, Enki, or another one of Satan's names but they will not swear they are of Satan. If you get a strange answer or the being refuses to answer the question, it is NOT of Satan and you should immediately terminate the conversation. You can do a Banishing Ritual or visualize Satanic electric-blue fire filling your room/house to banish a malicious entity.

Satanic Electric-Blue Fire (The picture is towards the middle of the page)

<http://astralartsofthegods.weebly.com/extras.html>

Enemy entities can cause depression, negative thoughts, suicidal desires, and other problems. Satan or a Demon will never make you feel like they are angry at you, like they are going to hurt you, like you are being watched in a creepy fashion, tell you that you are a failure, make you

want to kill yourself, or otherwise make you feel uncomfortable. Practicing void meditation daily will give you the ability to banish unwanted thoughts at will. Ignoring negative thoughts will make them eventually go away.

Void Meditation

Cleaning your aura and building an aura of protection daily, multiple times daily is better, will prevent spiritual attacks. A clean aura naturally repels negative entities and also keeps disease from manifesting. A strong aura of protection guards you against spiritual attacks, bad luck, accidents, horrible people, and other misfortune.

You can use SURYAE, ALGIZ, BERKANO, SOWILO (SAULO is the more powerful version), SATANAS, solar energy, or some other method to strengthen your aura of protection. How to Use Runes/Mantras for Magick

When using words of power (such as runes or mantras), you select a word of power with properties conducive to your goal. For example, the rune ANSUZ can be used to remove emotional hang-ups, the rune WUNJO (WAUNYO is the more powerful version) can be used for healing, and the sun mantra SURYAE can be used for protection. You vibrate the word of power a certain number of times and direct the energies raised using affirmations and visualization. 108 is a power number and doing 108 vibrations of any rune or mantra is extremely powerful.

<http://josministries.prophpb.com/post745.html>

Magick needs to be timed with astrology. Starting a spell during sub-optimal astrological conditions can cause the spell to be severely weakened or fail. A spell should be started during the day and hour of the planet that rules the particular working. Planetary rulerships are found in the "Azazel's Astrology for Satanists" section on the Joy of Satan website. For example, the sun, Venus, and Jupiter rule money and wealth. You would want to start a money spell on Thursday (the day of Jupiter), Friday (the day of Venus), or Sunday (the day of the sun) during the hours of Jupiter, the sun, or Venus. The moon sign at the time you start a spell should also be good for the magickal working you are doing. For a money spell, the moon should be waxing in Taurus, Leo, Libra, Sagittarius, or Aquarius. Chronos XP is a program that reveals the planetary hours of the day. There are the iPhone apps "Hours" by Sirius Lab Ltd or "Lunar Calendar" by Vyacheslav Petrukhin, that show the planetary hours of the day. Useful apps for Android are "Planetary Hours" by Luigi Notaro, "Astrology Ephemeris" by Spinsoft, "Simple VoC Moon Calendar Lite" by fxwill, and "Mercury Retrograde" by Delfyn Software."

Azazel's Astrology for Satanists

<http://www.angelfire.com/empire/serpentis666/FURCAS.html>

The moon should NOT be void when you start a spell or magickal working. Starting any magickal working during a void moon will cause it to fail. A magickal working can be performed for multiple days. Doing a multi-day magickal working is much more powerful than a one-shot ritual. Make sure the moon is not void when you start the magickal working. On later days, the moon can be void when you perform the spell as the magickal working has already been started. Doing a spell every day for 40 days is extremely powerful as doing a spell for 40 days engraves it into your soul and makes it permanent.

Methods of Keeping Count When Vibrating Words of Power

To keep count you can use a Satanic rosary, sticks, cards, a calculator (type in 1+1 and hit the = button each time you do a vibration), folding a sheet of paper, or any other method that works for you. At the simplest, a Satanic rosary is just 108 beads on a string to help you keep count.

Here is a method developed by Fire2U (SuryaPuttran):

“To help you to keep-up with the count, find a way, practice it and familiarize yourself with it.

I use my fingers and finger-pads. There are 3 pads on each finger.

I use my thumb to press the 1st pad of my little finger for one count, 2nd pad of little finger for 2 counts, 3rd pad of my little finger for 3 counts.

Then i'll switch my thumb to press my ring finger's 1st pad for the 4th count and so on.

-I find using fingers to be very easy esp to count 108.

-I'm right-handed so I'll press my thumb on each 3 pads of my right hand fingers which will amount to 12 counts (beginning with little finger then ring, middle and index),

-I'll press the pads of my LEFT hand's little finger to denote 1 set of 12 counts being done on my right.

So pressing 9 pads with my left thumb(begin with little finger, then ring then middle) on left hand X 12 counts on right hand = 108.”

About Physically Performing the Dedication Ritual

You can physically perform the Dedication Ritual if you are very careful. Use your personal judgment to decide if you should do the Dedication Ritual physically. You know your parents and household better than anyone else. If physically performing the Dedication Ritual will endanger your safety, you can perform the ritual in your astral temple. Performing the ritual in your astral temple is every bit as valid as performing the ritual physically.

Creating an Astral Temple

<http://www.angelfire.com/empire/serpentis666/Temple.html>

If you do want to do the Dedication Ritual physically, make sure you think every step of the ritual through so nothing can go wrong due to a lack of preparation. Think about preparatory work, the ritual itself, and cleanup afterwards.

You can do the ritual in the middle of the night when everybody else in the house is asleep, such as at 2:00 AM. You can also wait until your parents leave and then do the ritual while they are gone. Doing the ritual inside your house is probably not the best course of action as the light of the candles is visible and burning the prayer at the end of the ritual will release a suspicious amount of smoke that can be easily smelled and set off smoke detectors. You can do the ritual inside (if you are extremely careful), outside, at a friend's house, or in a park.

If your parents wake up in the middle of the night to use the restroom, will they see lights if you do the ritual in your chosen location inside or outside? The ritual can be done, if you have one, in the backyard on a side of the house where there are not windows pointed at your position. There can be windows looking at your ritual location as long as the light of the candles does not shine suspiciously into the house and your parents will not look out those windows if they wake up in the middle of the night. You can also close the shades or blinds on windows to keep light from going into the house. There are endless possibilities for finding or making a safe location to perform your dedication ritual.

Destroying Xian(christian) or muslim Arguments

You can discuss the endless wars, atrocities, massacres, and other crimes committed by christianity, and related programs like islam, and how christianity is designed to keep people in fear of some spook in the sky. You can also mention how christianity is used for the benefit of a select few individuals to control the masses. For example, the Inquisition brutally murdered anyone accused of heresy or witchcraft. Anything could get someone accused of being a witch and that included having freckles or birthmarks. Also, the Inquisition caused economic devastation whenever the inquisitors passed through. The people being tortured were billed for the ropes that bound them and the wood that fueled the fires burning them if they survived. If they did not survive then their family was billed. Inquisitors feasted after accusing wealthy people of being heretics because if someone was accused of heresy all their property and possessions were seized. Dead people were put on trial for heresy so property could be seized from their heirs.

You can also point out the many contradictions in the bible and how christianity makes zero sense when you use some logic. For example, the bible is considered the word of god and that is why christians are supposed to "love thy neighbor" (Lev 19:18). Well, in the next sentence (Lev 19:19) god also says you are not supposed to wear clothes made of two different kinds of materials. Apparently cotton/spandex jeans and wool blend jackets are totally fine and that particular commandment from god doesn't apply but people should be put to death for having sex without being married (Deuteronomy 22:23-24).

Exposing Christianity

http://see_the_truth.webs.com/

Islam is just as vile as Christianity with war against the nonbeliever (jihad) as a central part of islam. If islam invaded, you had two choices:

1. Convert and give up your land and personal possessions to your new slave masters and live the rest of your life as a prisoner in your own homeland, paying daily and slavish worship to their alien "god" allah. I.E., your life was pretty crap from that point onwards and there was nothing you could do about it. If you did decide to change your mind somewhere along the line, well that brought you swiftly to choice number 2.

2. Be brutally, publically tortured and slaughtered along with your family and other loved ones.

Convincing Your Parents not to send you to a xian(christian) school

You can convince your parents that you do not want to go to a christian school. You can convince your parents that the christian school would be inferior to a different (non-christian) school. Try to make your parents like you. Do the laundry. Cook dinner. Mow the lawn without being asked. If they like you, then your words will have more impact on them. Also, if you compliment something unique that your parents did, in their eyes, that will make you seem smarter than debating with them for 10 minutes about world events. If your parents do something that they seem happy about, remember it and compliment them about whatever it was later even if it was extremely trivial to you.

Research the particular school that you go to and look at its graduation rates, test scores, the salary of the principal/president, and other important information like income of students who graduate from that school. Next, research non-christian schools in your area and see if they have better test scores, lower disciplinary rates, higher graduation rates, more students going to college, students receiving more scholarship money, or any other factor that would make the non-christian school superior to the christian school.

For example, if the christian school president makes \$240,000 a year and the non-christian school president makes \$120,000 a year, you can tell your mother that the christian school president is making far more money than the non-christian school president (because money=evil to a christian). If the christian school charges tuition and the president/principal makes a large sum of money, that is even better. You can mention that the greedy principal takes people's hard earned money for himself. If the students graduating from the christian school received \$200,000 in scholarships and students graduating from the non-christian school received \$2,500,000 in scholarships, then tell your mother how the students coming out of the non-christian school were receiving scholarships, going to college, and doing well academically. If you can find a criminal who went to the christian school, mention that. If some guy named Bobby, who raped and murdered three women, went to the christian school then bring up how the christian school made Bobby the murderer. If there were any sexual scandals, these are often called "unlawful sexual intercourse" or "unlawful sex," then mention the scandals. Then mention the high test scores, lack of scandals, no tuition, the principal's low salary, and other beneficial traits of the non-christian school. You want to make the christian school seem like a sexual, greedy, criminal, hell-hole (the christian hell) that will fail you academically and make the non-christian school

seem like a pristine educational facility, without sexual scandals or criminal graduates, that will set you on the path to college and academic excellence.

How to Raise Your Energies

You can raise your energies by doing yoga, breathing exercises, absorbing energy from the sun, vibrating SATANAS, doing the 666 meditation (VU VA VO), or using some other method that gets you an energy buzz. An energy buzz is a feeling of tingling, vibrating, buzzing, feeling like you are glowing, or some other sensation that indicates you have heightened levels of bioelectricity (also called vril, witchpower, chi, life force, etc.).

Short-Term Magick

Short term spells are still effective. Because the spell is not repeated for 40 days, the spell will weaken over time and will need to be reinforced in the future. Repeating a spell every day for 40 days will engrave it into your soul and make it permanent. A spell that has been engraved into your soul lasts for the rest of your life and into future lifetimes as well.

Also, something simple like a change in your diet can have a major impact on your health. Foods such as fast food are laced with toxins that destroy your health and turn you into a blob that needs a handful of pills daily just to stay alive. You should eat good foods like homemade whole-wheat bread, beans, brown rice, meats, fruits, vegetables, eggs, sweet potatoes, etc.

In addition to fixing your diet, you should check if you have any nutritional deficiencies. Deficiencies in nutrients like B vitamins, magnesium, zinc, and iron are common and a deficiency will negatively impact your health.

Love Spell

Spiritual connections left over from past lives and mental hang ups can wreck your love life and prevent you from having a fulfilling relationship with someone. Mental hang ups can be healed through meditation. Meditation reveals the root of the hang ups and enables you to defeat the hang ups forever. You can go into a trance and ask yourself what the roots of the relationship problems are. Spiritual connections left over from past lives can be burned away by doing a MUNKA working or using the runes ANSUZ or URUZ.

You can do a Venus square, use SATANAS, or use another method such as runes (like GEBO) or directing orgasmic energy to attract a lover into your life. Doing a magickal working every day for 40 days makes the effects of a working permanent. For example, you can vibrate SATANAS 40 times and affirm something like, "In a positive manner I am attracting a lover that is perfect for me in every way," 9 times. You do the vibrations and affirmations every day for 40 days. The working can be done for another 40 days after the initial 40 days to make it more powerful. For directing orgasmic energy you stimulate yourself while focusing on the perfect lover and know with absolute certainty that he/she is yours. At the moment of orgasm, direct your entire desire and focus to the goal and state and affirmation like the one above.

Magick needs to be timed with astrology. The moon should not be void of course when doing magick of any sort. A spell to attract a lover should be performed on a Friday (the day of Venus) or Thursday (the day of Jupiter which amplifies white magick) during the hour of Venus. The

moon should be waxing and in a favorable sign like Taurus or Libra. Chronos XP is a program that reveals the planetary hours of the day. There are the iPhone apps “Hours” by Sirius Lab Ltd or “Lunar Calendar” by Vyacheslav Petrukhin, that show the planetary hours of the day. Useful apps for Android are “Planetary Hours” by Luigi Notaro, “Astrology Ephemeris” by Spinsoft, “Simple VoC Moon Calendar Lite” by fxwill, and “Mercury Retrograde” by Delfyn Software.”

Make sure the moon is not void when you start the magickal working. If you are doing a multi-day magickal working, on later days the moon can be void when you perform the spell as the magickal working has already been started.

Binding Spell/Working

Binding someone keeps that person from harming you in any way. This includes sabotaging you, harming your reputation, attacking you, falsely accusing you of crimes, constantly harassing you to the point you cannot meditate, or otherwise bringing harm to you. Binding someone is different from throwing a curse. Someone who is bound is not doomed to disaster or death. Family members can be bound to keep them from harassing you and will make your life much easier, especially for people who are underage and are living in a house hostile to Satanism.

Cleaning your aura and building an aura of protection will keep horrible people from harassing you. A clean aura naturally repels their negativity right back at them and a strong aura of protection does the same. For example, if a person is obsessing over you, that will direct weak thoughtforms at you and a strong aura of protection keeps the thoughtforms from influencing you or causing you problems. If the person strongly desires you to be with him again, that will put energy towards making something happen to where you will be with him again. A retard who does not meditate will not have enough power to make his wish come true, but the thoughtforms can cause problems like distracting thoughts or difficulty meditating.

You can use the rune ISA to bind someone. An example binding working would look like this: vibrate ISA 108 times and then affirm "(name of person) cannot harm me in any way whatsoever" 9 times while visualizing him/her bound. Know and feel that he/she is bound and know with absolute certainty that he/she cannot bring any harm to you. You may need to get creative in order to do the vibrations. You can do the vibrations at 3:00 am when everybody else in the house is asleep. You can do the binding working while inside of a car in a garage. If you get creative, there are many opportunities where you can successfully and safely do a binding working.

Binding workings and rituals need to be timed with astrology. The moon should not be void of course when doing a binding ritual. Also, Mars should NOT be retrograde when performing black magick of any sort. A binding ritual should be done on either a Saturday (the day of Saturn) or a Tuesday (the day of Mars). During the appropriate day, the ritual or working should be done during the hours of Mars or Saturn. Chronos XP is a program that reveals the planetary hours of the day. There are the iPhone apps. A binding spell can be performed for multiple days. Doing a multi-day magickal working is much more powerful than a one-shot binding ritual. Make sure the moon is not void when you start the magickal working. On later days, the moon can be void when you perform the binding spell as the magickal working has already been started. Doing any spell every day for 40 days is extremely powerful as doing a spell for 40 days makes it permanent.

After doing the binding spell, thoroughly CLEAN YOUR AURA. You just handled extremely negative energy. Neglecting to clean your aura will allow that energy to cling to you and bring you problems later.

Black Magick Guide

First of all, clean your aura multiple times daily and build an aura of protection daily. Also, make sure you meditate and do yoga daily so you will be strong enough spiritually to make a destruction working succeed. Make sure you thoroughly CLEAN YOUR AURA after doing black magick of any kind. Neglecting to clean your aura will allow the negative energy you worked with to stick to you and destroy you.

For a runic destruction working you can use the runes THURISAZ, HAGALAZ, and ISA. Vibrate THURISAZ x27 (or a multiple of 9) and then affirm x9 "The energies of Thurisaz are permanently and completely destroying (name of individual)." Vibrate HAGALAZ x27 (or a multiple of 9) and then affirm x9 "The energies of Hagalaz are permanently and completely destroying (name of individual)." Vibrate ISA x27 (or a multiple of 9) and then affirm x9 "The energies of Isa are permanently and completely destroying (name of individual)." You can then visualize the individual being destroyed in any way you please.

Meditation for Protection

<http://josministries.prophpbbs.com/topic10007.html>

The runic destruction working can be done at the height of a ritual or on its own. Raising your energies by performing breathing exercises, doing yoga, vibrating mantras, or some other method before a working will make any working more effective. The 666 meditation (VU VA VO) and SATANAS are extremely effective for raising your energies.

SATANAS

When visualizing, do not limit yourself. The person can die in a car wreck or the person could get drunk and drown in a pool, overdose on painkillers, get stabbed to death by a mugger, get run over by a car, be attacked by a rabid dog, die from cancer, have a heart attack, choke on a fish bone, or die in some other fashion.

Here are some other methods of destruction.

How to Make a Thoughtform (direct the thoughtform to destroy the target)

Raising Death and Anguish from the Earth (page 24 of “Satanic Rituals, Magick, Sermons, and the Kundalini Serpent” if the link does not work)

You can also direct elements to destroy the person. For example, you can evoke fire and direct the fire to destroy the person or vibrate TEJAS (Sanskrit word for fire) and direct that energy to destroy the person. TEJAS is pronounced: TH-TH-AY-AY-YY-YY-AH-AH-U-U-U-S-S-S. Other elements can also be used for destruction.

Magick takes the path of least resistance and will bring the person to disaster in various ways. When performing a destruction spell, know with absolute certainty and conviction that the person is completely and permanently destroyed. If you doubt yourself, that will undermine your destruction spell.
